## E L Ő S Z Ó

A jelen füzettel újabb részlete jelenik meg a "Vocabularium abbreviaturarum bibliothecarii"-nak: az "Index acronymorum selectorum" c. kötetnek az a része, amely a nevelés- és oktatásügyi intézmények /tan- intézetek, pedagógiai célu szervek stb./ névrövidítéseit tartalmazza. Tartalmi szempontból - a tárgykör teljessége érdekében - ajánlatosnak és célszerűnek látszott, hogy a füzet főrészét két függelékkel egészítsük ki: 1. az egyetemi és egyéb tudományos grádusok, diplomák és hasonló rövidítéseinek válogatott jegyzékével, 2. az egyetemi /és egyéb/ ifjúsági szervezetek rövidítéseinek jegyzékével./Célszerűségi szempontból a latin- és cyrillbetűs anyagot most is külön abc-ben hozzuk./

Ami a jelen füzet anyagának feldolgozási módját illeti, az szinte mindenben megegyezik az előzőével. Az egyes rövidítéseket követi a feloldás, utána - amennyiben megállapítható volt - az illető terület székhelyének, esetleg országának megnevezése, majd annak a nyelvnek egy-két betűjével jelzett feltüntetése, amelyből a rövidítés származik. A székhelyül szolgáló városok közül azoknak jelölésére, amelyek gyakrabban előfordulnak, szintén csak egy-két betűt használtunk fel. A szíglák feldolgozásánál az egyöntetűség érdekében mi is követtük nemzetközi rövidítésgyűjteményeknek azt a gyakorlatát, hogy a latinbetűs részben partikulák kivételével minden szót nagy kezdőbetűvel irtunk. Ha ugyanazon területnek több, változó betűértékű rövidítése van, úgy a teljes leírást csak egyik alaknál adtuk meg, s a változatokról egyenlőségjellel utaltunk arra a helyre, ahol a teljes leírás található. Ha egy rövidítés változó alakkal ugyan, de azonos betűértékkel /pl. csupa nagybetűvel, vagy részben kis betűkkel stb./ is előfordul a gyakorlatban, gyűjteményünkben a különböző formai változatok feltüntetéséről kénytelenek voltunk lemondani.

Könyvtárosi és dokumentációs célunkból folyik, hogy könyvünk nem csak un. kurrens rövidítéseket tartalmaz, hanem a múltba is visszanyúl, bár ilyirányu gyűjtésünk nem volt oly szisztematikus, mint az élő anyagot illetően. Sajnos: ez utóbbi vonatkozásban is kénytelenek voltunk a terjedelemre való tekintettel szelekciót alkalmazni.

Mínthogy könyvünk elsősorban a magyar szakemberek használatára készült, a latinbetűs abc-ben megtartottuk a magyaros sajátságokat, tehát az ö és ü betű az o és u után, önálló betűként következik. Az un. dia-kritikus jeleket a betűrendi beosztásban nem vettük figyelembe. A **cyrill** abc-ben természetesen külön szerepelnek az ukrán "i" és szerb "j" betűvel kezdődő rövidítések.

Reméljük, hogy szerény füzetünkkel hiányosságai ellenére is használható segédesszöveget adhatunk át az érdeklődőknek.

## ПРЕДЛОЖЕНИЕ

Настоящая брошюра является новым разделом "Vocabularium abbreviarum, bibliothecarii". Той частью "Index acronymorum selectorum", которая содержит сокращения названий учебно-воспитательных учреждений /учебных заведений, педагогических органов и т.д./. С точки зрения содержания - в интересах полноты круга тем - желательным и целесообразным казалось дополнить основную часть брошюры двумя приложениями: 1. Выбранным перечнем сокращений университетских и иных научных степеней, дипломов и аналогических сокращений. 2. Перечнем сокращений университетских /и иных/ молодежных организаций. /С точки зрения целесообразности материалы с латинским и русским текстом ты и здесь разместили в отдельном алфавитном порядке/.

Что касается метода обработки материала этого сборника, то он почти во всем соответствует предыдущему. После отдельных сокращений следует их расшифровка, затем - в том случае если была возможность это установить - указание местонахождения, а возможно у страны, после чего указание одной-двумя буквами того языка, с которого сделан перевод. Для указания тех городов местонахождения, которые встречаются нам более часто, мы также использовали только одну-две буквы. При обработке сокращений в интересах однородности мы следовали практике международных сборников сокращений, при которой в части, составленной латинским шрифтом, за исключением несклоняемых частей речи мы писали все слова с заглавной буквы. Если одна и та же организация имеет несколько сокращений с различными буквенными обозначениями, то полную расшифровку мы дали только для одной формы, а в отношении вариантов знаком равенства указывали на те места, где можно найти их полную расшифровку. Если какое-либо сокращение применяется на практике в различной форме, то с теми же буквами /например, полностью заглавными буквами или частично с незаглавными буквами и т.д./, мы вынуждены были в нашем сборнике отказаться от приведения вариантов различной формы.

Из наших библиотечных и документальных целей ясно, что книга наша содержит не только так называемые часто используемые сокращения, но затрагивает и прошлое, хотя такого рода сбор не был таким систематическим как сбор живого материала. К сожалению и в отношении этого последнего мы вынуждены были применять отбор в связи с большим объемом материала.

Так как наша книга предназначена главным образом для венгерских специалистов, то мы в латинском алфавите сохранили венгерскую специфику, то есть буквы "ö" и "ü" следуют после "o" и "u" в качестве самостоятельных букв. Так называемые диакритические знаки мы не учли в алфавитном порядке. В русском тексте само собой разумеется отдельно фигурируют сокращения, начинающиеся с украинского "i" и сербского "j".

Надеемся, что наша скромная брошюра несмотря на ее недочеты, окажется полезным подспорьем для интересующихся.

#### PREFACE

This booklet comprises another section of the series Vocabularium Abbreviaturarum Bibliothecarii: part of the volume Index Acronymorum Selectorum, it contains the abbreviations of educational institutions /schools, colleges, pedagogical organisations, etc./. Concerning the scope of contents, endeavour has been made at a comprehensive treatment of the subject; thus it seemed advisable and expedient to complement the main part of the booklet with two appendices: 1. a selected list of abbreviations of university and other scientific degrees, diplomas and the like; 2. a list of abbreviations of university and other youth organisations. For practical purposes, Latin and Cyrillic material is treated in separate alphabets here too.

As to the method of working out the material of this booklet, it is identical with the former in almost every respect. Abbreviations are followed by resolutions, then - as far as was ascertainable - by the chief town, or possibly country, of the relevant area, then by one or two letters indicating the language of which the abbreviation had been derived. Frequently figuring capital towns are indicated also by one or two letters. In working out the siglae, we have, for uniformity's sake, followed the international practice applied for compilations, i.e. to use capitals for every word, except for the particles, in the text with Latin letters. Wherever several abbreviations of varying letter value stand for the same organisation, the full description is given for one form only and the sign of equality /=/ refers from the variation to the place where the full description is given. In practice, an abbreviation may appear in various forms but always with the same pattern of letter value /e.g. capitals only, or small letters in part, etc./; it has not been possible to deal with such cases in our compilation and to show all possible variations of form.

Since this booklet is intended for library and documentation purposes, it contains not only so-called current abbreviations, but also goes back to the past; however, compilation work of this kind has not been so systematic as that on contemporary material. Considerations of space have, unfortunately, forced us to employ selection in this latter respect as well.

Since this booklet is meant primarily for the use of Hungarian specialists Hungarian characteristics have been retained in the alphabet of Latin letters, i.e. the letters "ö" and "ü" are treated as independent letters and placed after "o" and "u" respectively. So-called discritical signs have been disregarded in the alphabetical arrangement. Abbreviations beginning with the Ukrainian "i" and the Serbian "j" are shown separately in the Cyrillic alphabet as a matter of course.

We express the hope that our unpretending booklet will, despite its shortcomings, serve as a useful aid to all who are interested in this field.

Budapest, the 15th of July, 1963.

## VORWORT

Mit diesem Heft erscheint eine neuere Fortsetzung unseres "Vocabularium abbreviaturarum bibliothecarii" und zwar der Teil des Bandes "Index acronymorum selectorum" der die Namensabkürzungen /Sigel/ solcher Körperschaften enthält, die ihre Tätigkeit auf dem Gebiet des Unterrichtswesens ausüben /Lehranstalten, Organe mit pädagogischen Zielsetzungen usw./ Im Interesse der Vollständigkeit des Sachgebietes schien es uns nützlich und zweckmässig, den Hauptteil des Heftes mit zwei Anhängen zu vermehren: 1. mit einem Auswahlverzeichnis der Abkürzungen der Hochschuldiplomen, akademischer Würden und ähnlichen; 2. mit einer Zusammenstellung der Namensabkürzungen der /Hochschul- und sonstigen/ Jugendvereinigungen und Körperschaften. /Aus Zweckmässigkeitsgründen bringen wir auch diesmal das lateinisch und cyrillisch beschriftete Material in getrennter alphabetischer Anordnung./

Was nun die Bearbeitungsweise anbelangt, ist sie mit der in unserem letzten Heft angewandten beinahe identisch. Nach der Abkürzung steht die Auflösung, dann - soweit sie feststellbar war - die Bezeichnung des Sitzes bzw. des Landes der betreffenden Körperschaft und zuletzt die Bezeichnung der Sprache, aus der die Abkürzung stammt /mit einem Buchstabenzeichen in Klammern/. Zur Bezeichnung öfters vorkommenden Städtenamen verwendeten wir ebenfalls Buchstabenzeichen. Bei der Auflösung der Sigel folgten wir der Praxis einiger internationalen Abkürzungsverzeichnisse, in dem wir in der lateinischen Buchstabenreihe alle Wörter, mit Ausnahme der Partikeln mit grossen Anfangsbuchstaben schrieben. Wenn dieselbe Körperschaft mehrere Abkürzungen - mit verschiedenen Buchstabenwerten - hat, dann wurde die vollständige Beschreibung nur einmal angegeben, bei jeder Variante jedoch mit dem Gleichheitszeichen auf die vollständige Form verwiesen.

Aus der Zielsetzung der Bibliotheks- und Dokumentationsarbeit folgt, dass unser Buch nicht nur die jetzt geläufigen Abkürzungen enthält, sondern auch in die Vergangenheit zurückgreift, obwohl unsere Sammeltätigkeit in dieser Hinsicht nicht systematisch war, wie das sog. kurrente Material betreffend. Leider mussten wir aber auch auf letzterem Gebiet - zufolge Raummangels - eine gewisse Selektion anwenden.

Da unser Buch in erster Linie für ungarische Fachleute bestimmt war, behielten wir im lateinischen Alphabet die ungarischen Eigentümlichkeiten bei, wodurch die Buchstaben "Ö" und "Ü" als selbständige Buchstaben nach "O" und "U" folgen. Die sogenannten diakritischen Zeichen wurden bei der alphabetischen Einordnung ausser Acht gelassen. Im cyrillischen Alphabet stehen natürlich die mit ukrainischem "i" und serbischem "j" angehenden Abkürzungen gesondert gruppiert.

Wir möchten hoffen, dass wir mit unserem bescheidenen Heft - trotz seiner Mängel - Interessenten einen nützlichen Behelf überreichen können.

Budapest, den 15. Juli 1963.
